TAILOR IN A TENEMENT HOUSE. Daniel Paul, a German tailor occupying apariments in the four-story frame tenement-house at No. 197 ison-ave., was arraigned before Justice Goetting in the Lee Avenue Police Court yesterday and held to answer a charge of arson. Paul was arrested at a o'clock yesterday morning on suspicion of setting fire to the building. Two attempts were made to destroy the building, but both were frustrated. There are dozen or more families living in the dwelling, and when the cry of fire was raised all were sleeping. The fire had been started in Paul's apartments, and the dense smoke which filled the house caused the wildest excite ment among the inmates. As they were awakened they ran from their apartments to the hallways and escapes in their night clothes and gained the street. When the Fire Department reached the scene the sames were extinguished with slight damage. On inestigation the fire was found to be confined to the mattress in Paul's room. Suspicion at once fell on Paul, but the police had not sufficient evidence to warrant his arrest at the time.

When the fire had been extinguished the tenants gain retired, only to be aroused shortly after 1 o'clock by another alarm of fire. This was followed by a scene similar to the one witnessed earlier in the even-The fire was for the second time in Paul's apartits, and he was taken into custody. After the fire men had extinguished the flames and the fact of Paul's crest became known, the police found much difficulty in preventing the frantic tenants from doing him bedily harm. An attempt was made to take him from the police, and cries of "lynch him" filled the air. Paul begget the police to protect him from harm. He was taken to the police station and locked up. He was beid in \$1,000 ball for examination.

RIVAL GAS COMPANIES AT WAR.

The Williamsburg Gaslight Company has obtained from Judge Osborne, in the City Court, an injunction restraining the Equity Gaslight Company, the Equity Gas-Works Construction Company and John Devlin, a contractor, from laying gaspipes in Broadway or else where above the pipes of the plaintiff. The Equity Company had begun to lay pipes in Broadway, between Roebling-st. and Driggs-ave. The plaintiff says that the Equity Company has no right to lay pipes at all, as its charter has been forfeited. The two gas companies are at war, and it is said that the present action is an attempt on the part of the Williamsburg Company to destroy its rival. An order to show cause why the in-function should not continue is returnable on Monday

ACCUSING A YOUNG WOMAN OF BIGAMY. Mrs, Angelina Smith, a young woman living at No. 20 Newell-st., was charged with bigamy in the Lee Avenue Police Court yesterday. The complainant was Charles Smith, of No. 126 Manhattan-ave., who said he had married the defendant in 1888. They did not live happily together and soon separated. In May, 1880, the young wife was married to Charles F. Perlera, in the Lafayette Methodist Episcopal Church, Jersey City by the Rev. P. G. Blight. Periera was in court when the young woman was called before the magistrate, and admitted that they had been married in Jersey City The court dismissed the complaint, on the ground that it had no jurisdiction in the matter, the offence having been committed in New-Jersey.

POVERTY DROVE HIM TO THEFT.

A case in which extreme destitution led a man to steal to get food for his sick wife came to light in the Adams Street Police Court yesterday. Charles Preiser, who lives in Carroll-st., near Third-ave., was arrested for stealing a harness from a stable near his home. He sold it for \$2, and bought food for his wife and coal with \$1, and the remaining \$1 was found in his pos session when he was arrested. He is a glazier and painter, and has been out of work for some time. He was married a year ago, and his wife is now living with her mother, who has no means of support. CHANGES AT THE STURTEVANT HOUSE.

TLL HEALTH COMPELS THE PROPRIETOR TO GIVE UP HIS WORK THERE.

Rumors were current in uptown hotels last evening that the Sturtevant House proprietor, James C. Mathews, had falled and that he had made an assignment for the benefit of creditors. A Tribune reporter was courteously received by C. R. Eldredge, the manager, who said: "There has been no failure. Mathews has been in ill-health for a long time. It was determined that the only course remaining, with any hope of restoring him to health, was to relieve him from all business cares. He is now in the country for the purpose of enjoying complete rest. Meanwhile the business of the Sturtevant House has been placed in the hands of Marvelle W. Cooper, Appraiser of the Port, and W. H. Wardell. The business of the was never better. Every room is filled and people are daily turned away."

Much confusion used to exist between the Startevant House and the Coleman House, from the fact that for one year the name of the Coleman was changed to the "Leland Hotel." Then the name was changed back to the Coleman House; the Lelands retired from the management of the Startevant, and the two houses have maintained their distinctive titles ever time.

MANUEL GARCIA NOT HANGED.

According to "Las Novedades," the Spanish-Amer-ican organ in the United States, Manuel Garcia, the famous Cuban bandt, has not been hanged, as reported in some New-York papers. Says "Las Novedades";
"We should be glad if the information given by our esteemed colleagues were true. But, as we have not seen in our latest exchanges from Cubs, dated October 9, anything in regard to Manuel Garcia, and as we do not know that the feroclous criminal has been executed, and not even taken prisoner, although the most tive search has been made for him, we incline to the belief that the person referred to is Eustacio Mendez. who was shot in the most of 'La Cabana' fort. Hanging is not in use in Cuba for anybody, and the erro te in the reported mode of execution is one more evidence of the incorrectness of the information relative to the alleged death of Garcia. He will be shot if sen-tenced to death by a military tribunal, or die by the 'garrote' if sentenced by a civil court of justice."

THE FIRE RECORD.

LEAKING ELECTRICITY CAUSES A BLAZE. A fire yesterday morning in Dennett's Dairy, in the rear of No. 33 Park Row, was caused by the improper insulation of the wires of the United States Electri Lighting Company. The leakage from the wires, which were bare in some places, set the woodwork of the dining-room on fire. The fire smouldered for some time between the walls, and it was necessary to destroy a good deal of the woodwork to put out the flames.
D. A. K. smith, manager of the establishment, threw water upon the hames, and the electricity ran from the pipes along the stream of water to his hand, knocking him down and hurling the bucket some distance away.

Being pressed, Croucher confessed that he set fire to Clinton Randolph's barns last winter, entailing a loss of \$4,000. His story of the fire corroborated what Randolph said at the time, although the man was not suspected. He said he hitched up two teams for Randolph and tied them by the house, and after running to the barn and throwing a lighted match on the hay, he went to the house and sat down to supper. After telling the story, Croucher went away.

The older residents and taxpayers of this town and the adjoining towns, who suffered so severely under the Tammany-Tweed-Sweeney reign, do not long for a return of those "good old days," with the stealings from the "boulevard improvements," and the fraudulent issue of town bonds. Every voter who registered last year, but neglected to vote, must register again this year.

UNABATED CONFIDENCE IN BUSINESS.

The business fallnres reported to R. G. Dun & Co. for the last week numbered 227 for the United States and 32 for Canada, a total of 259, compared with 270 in the previous week and 227 in the corresponding week of 1890. The reports of business activity are generally flattering, and may be summarized in this paragraph of the weekly review: Business throughout the West and South is strong

and improving. At Eastern centres there is less satstaction, and the expected results from the harvesting of large crops are more slowly realized. Yet the volume of all trade, as shown by payments through clearing-houses outside New-York, is as large as it ver has been, and for October may even surpass the ever has been, and for October may even surpass the unprecedented record of last year. The agricultural report for October 1 gives assurance of larger crops than have been generally expected, and the heavy shipments of gold forn Europe, with the continued refusal of the Bank of England to advance its rates, tends to remove all apprehensions of monetary pressure. The prevailing confidence in the future of business therefore continues unabated, and is seen even in some branches which complain most of dull trade at present."

Besides the extensive programme of athletic contests, there will be trick riding by D. J. Canary and W. S. Maltby, the champions of the world, every after on and evening, and Levy's American Band wil also be in attendance. The track will be watched night and day from the first lap to the last. A great feature, and one the spectators will appreciate, will be the introduction of the European plan of short races, which take place on the same track while the long race is in progress. This plan was adopted in the great tournaments given by Morgan's American team in London, Eduburgh, Berlin and other cities, and met with hearty approval.

FOR BOYS

URABILITY, our chief aim in making Boys' Suits.

It is no object for us to sell clothes that fit and look well, only.

The intrinsic worth of our Suits is in the strong sewing, and excellent finish, Prices \$4 to \$10, for ages 4 to 14 years, and \$7 to \$20, for ages 14 to 18 years.

Our fashion book showing the styles for both boys and men sent free to

"A straw shows how the wind blows," and the colossal sale of our Furniture, Carpets and Curtains goes merrily on. Come and take some of the advantages we offer.

Baumann Bros 22-26 14th St., East.

Harvest time with us. The excellence of our rightly made clothing and the knowledge that it is ready for instant use, encourages the habit of waiting until the season demands a change.

Now we are serving many men who formerly went to their tailors weeks in advance or waited impatiently if late in ordering. Autumn Suits or Overcoats, \$15 to \$30.

As good clothes for boys as for men, and full stocks of Hats, Shoes and Furnishings. Of the latter we call attention to several lines of remarkably handsome underwear, at prices much below intrinsic value, and a display of Neckwear that is most attractive. Stores open this evening.

Baron Liebig

The great chemist pronounced the well-known LIEBIG COMPANY'S EXTRACT OF BEEF, made of the fluest River Plate cattle, infinitely superior in flavor and quality to any made of cattle grown in Europe or elsewhere. He authorized the use of his well-known signature as the trade-mark of

Liebig Company's Extract of Beef. The Liebig Company have for twenty-five years been putting up the famous product which stirred medical circles when first invented, and given to the world by the renowned chemist, Justus von Liebig. It is unapproachable for purity, flavor and beneficial effects.
